Dear Jamie,

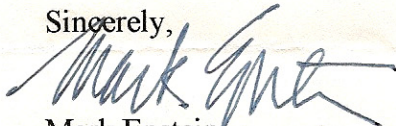

We want you to know what a pleasure it has been to work with you.

As builders and developers, we have never sold anything other than an empty house. The Pointe Regatta house took on a completely different look once the staging was complete. It had the much warmer feel of a home rather than just a house for sale.

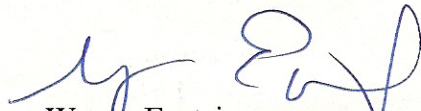

You were also very helpful in trying to work within a reasonable budget. You chose just the right items for each room from the rental agency, and were able to fill in nicely from your own inventory. The outstanding choice and positioning of accessories complimented the furniture beautifully.

Thank you! We know your work will pay dividends in helping sell our houses.

Sincerely,

Mark Epstein
